

Medical Clinics Seeing Patients for Dental Hygiene Services

The Colorado Medical Dental Integration Project (CO MDI) Project is still in the start-up stage. Not all of the 16 clinics funded are currently providing dental hygiene services.

Age groups served by each clinic vary and may change over time. Some clinics may ask you to be a medical patient in order to also receive dental hygiene services. Please discuss these details with each clinic as you contact them.

The following medical clinics have begun offering dental hygiene services:
