

Standing Against Racism

In this pivotal moment, Delta Dental of Colorado and Delta Dental of Colorado Foundation join together and stand in solidarity with Black members of our company, our community, and our country. The systemic, institutional racism that pervades our society is a persistent and wretched enemy of equity. We understand that to be silent about the injustices and threats to the lives of Black people is to be complicit, and we refuse to be silent. Those who abuse their power and continue to take Black lives must be held accountable.

In our commitment to change, we've made donations to the [NAACP](#) to support national advocacy and human rights, [Black Lives Matter 5280](#) to support thriving black communities statewide, and [brother jeff's Cultural Center](#) to support local community outreach. Every person, regardless of racial, social, and economic status, has the right to live free from violence and injustice. We all have a responsibility to take action and create social change.
